

501.671 Program and Project Managers (P/PM).

(a) *General.* The Federal Acquisition Certification for Program and Project Managers (FAC-P/PM) core certification program certifies program and project managers at three levels: Entry, Mid and Senior. This certification program is based upon a competency model of performance outcomes which measures the knowledge, skills and abilities gained by program and project managers through professional training, job experience and continuous learning. Program and Project Managers (P/PMs) are critical to project success, including developing accurate government requirements and managing life-cycle activities to ensure that intended outcomes are achieved. Information about FAC-P/PM is available at <https://www.fai.gov/> and GSA's Acquisition Portal at <https://insite.gsa.gov/acquisitionportal>.

(b) *FAC-P/PM Certification.* All employees, regardless of their series, must be certified (FAC-P/PM) at the appropriate level (Level I, II or III) in order to be assigned as a program manager, project lead or integrated project team (IPT) lead.
